

### Templemore Credit Union School Savings scheme

Templemore Credit Union operates a school savings program with the co-operation of your child's school. This program has been in place for the last 2 year and has proven to be a great success.

This program encourages students to save on a regular basis. This is a new fully electronic card system which is a safer version of the old "Sammy Stamp" system which may have been in use.

The Card which is similar to our debit or Visa Cards allows the students to lodge or check their balance during the school visit by the Credit Union personnel. A member of the Credit Union will call every Monday to operate this facility.

If you would like your child to take part in this program please fill out the required details below and return it to your child's Teacher.

The cost of 1<sup>st</sup> card is €1.00

Please note replacement card costs €5.00
